

RITECH
BIOSLIMDISK 2.0

NEXT GENERATION SECURE USB DATA STORAGE

Zero Footprint *Truly Secured And Portable*

NEW with Entry Guard and Power Management

RITECH

BIOSLIMDISK 2.0

DESCRIPTION

With increasing amount of confidential information being transported around today, the occurrence of theft and unauthorized access of such information have constantly become a threat. Ritech has introduced the latest hi-speed BioSlimDisk 2.0 solution which secures information reliably only with your fingerprint and at the same time leaves behind zero footprint on all local systems. The BioSlimDisk 2.0 allows total mobility while maintaining high level security under most adverse restrictions and circumstances. Your confidential information now remains safe in your hands without any worries.
